About Tommie

In February 2019, a dog named Tommie changed our lives. Tommie, a brindle Pit Bull, was doused with lighter fluid, tied to a fence, and set on fire. The story of our tremendous efforts to save him spread across the world and prompted a landslide of donations, well-wishes, kindness, and love. Sadly, we were unable to save Tommie's life, but his resilient spirit still lives on today and has changed so many animals' lives for the better.

About the Tommie Fund

Because of the outpouring of support we received, the Richmond Animal Care and Control Foundation (RACCF) created the Tommie Fund, which provides funding for emergency veterinary care to other municipal animal shelters across the state of Virginia. Twenty-two municipal shelters currently participate in this life-saving program. Your license plate purchase keeps this funding available to help animals all across Virginia.

Did you know your pet needs to be licensed?

It's the law

City of Richmond residents must purchase a yearly license for each dog or cat they own that is four (4) months of age or older. The cost is \$10 per pet.

Helping the animals

License revenue not only brings you into compliance, it helps support the many great life-saving programs happening at Richmond Animal Care & Control (RACC).

NOW AVAILABLE — Purchase your pet's license online!

RACC is partnering with PetData to make it easier than ever to license your pet! While PetData is headquartered in Texas, you can rest assured license revenue will still help Richmond Animal Care & Control, the only open-admission public animal shelter in the City of Richmond. For all licensing options: scan the QR code, visit petdata.com/richmond or call 877-202-3558.
