

Change of Use Certification:

I certify that I have thoroughly inspected the structure located at:

Address: _____

I certify that the structure's **electrical** system is in full compliance with the 2008 National Electrical Code, 2009 International Building Code and the 2009 Virginia Uniform Statewide Building Code except for the following:

By signing this form you are certifying that you have personally made a thorough inspection of the structure's electrical system and it will comply with the reference editions of the National Electrical Code, International Building Code and the Virginia Uniform Statewide Building Code once the violations you have listed have been abated. In other words, you have listed all the existing electrical violations in the structure. You are not certifying plans or work to be done in the future; you are certifying the structure, as it exists at the time of your inspection. Further, you are certifying that you are knowledgeable in electrical engineering and the national Electrical Code, International Building Code and the Virginia Uniform Statewide Building Code and that you fully understand what you are certifying.
