Whitehead Road Culvert Replacement and Sidewalk Improvements

Project Information

This project was initiated as a result of routine flooding along Whitehead Road at the crossing with Pocosham Creek. Issues include undersized pipe culverts and the lack of designated sidewalks and pedestrian accommodations along the roadway. Construction cost for this project is an estimated \$5 million. All necessary easements and right of way have been acquired.

The proposed improvements will occur on Whitehead Road between Daytona Drive and Greenbank Road and consist of replacing the existing culverts under Whitehead Road to adequately convey Pocosham Creek, making vertical adjustments to Whitehead Road to facilitate the conveyance of Pocosham Creek, and approximately 2,400 linear feet of new sidewalk with ADA ramps and crosswalks, curb and gutter along both the east and west sides of Whitehead Road, beginning at Greenbank Road and ending at Daytona Drive.

Project Schedule

Project Assignment: July 2019 (RK&K)

Survey & Preliminary Design: Completed

Engineering Design: Completed (RK&K)

Construction Assignment: Construction anticipated Spring/Summer 2023, estimated time 12 months

What Happens Next:

Utility Relocations:

Will occur before construction starts.

Public Meetings:

Before construction begins, a letter will be sent to adjacent property owners to notify them of the construction start date.

Project Duration:

12 months after start.

Project Benefits:

Reduce flooding in area and allow for improved pedestrian access.
