Priority Setting

“Once you have a clear picture of your priorities, that is values, goals and high leverage activities organize around them.” ~ Stephen Covey

We have embarked on the FY25 Budget Season. This time last year you collectively agreed to identify shared goals that would guide decision-making throughout the process and serve as guide posts for the implementation of the budget throughout the fiscal year. You expressed the need to match limited, available resources with community priorities as expressed to you serving as the voice of the people. Your priorities were captured broadly and you agreed they would continue into FY25.

This year, we thought we should reconfirm your sentiments above and get continued guidance and confirmation on how to proceed in this season. The following survey is meant to capture your feedback and input toward that end.

It will take about 15-20 minutes to complete. Please complete this survey on or before **Friday, February 23, 2024.**
