***NOTE: Other factors, such as distance/length of service or elevation, may make it necessary to utilize a larger meter than that which is indicated by this calculation**

DPU RECEIPT # _____

WATER: Installation & Inspection Expectations

Cross Connection: *Commercial properties require a backflow prevention device; Fees for water services will not be accepted until detailed information is provided to the DPU showing the dimensional location of all required backflow prevention devices and the corresponding manufacturer make and model data.*

Meters will not be set or service activated until required device has been installed and verified by the DPU Cross-Connection staff.

NOTE [1] – If the contract amount is over \$1,000, backflow prevention devices shall be installed by a licensed plumbing contractor.

If the contract amount is under \$1,000, backflow prevention devices may be installed by a State licensed Master Plumber.

Backflow prevention devices installed as part of a fire sprinkler system may be installed by an employee of a licensed fire sprinkler contractor.

[2]- A plumbing permit issued through the City's Bureau of Permits must be obtained for ALL private installations

[3] A separate fire sprinkler permit will be required for the installation of a backflow preventer on a fire sprinkler service line.

WATER SERVICE [FIRE, IRRIGATION OR DOMESTIC] INSTALLATION

FEES: *DPU required fees for all water services/connections are as shown in City Code Appendix A or as determined in accordance with DPU Policy*

The City of Richmond DPU supplies and installs the following: Tap into existing water main, corporation stop, curb stop, curb box, copper, brass, or ductile iron service line, meter box or vault and meter. Allow a minimum of 30 – 45 days for installation of service after approval of permit.

The applicant supplies the following: All work beyond the meter box/vault including any required backflow prevention devices.

NOTE: The meter will not be set or activated until an approved backflow device has been installed by the owner and inspected by the DPU's Cross Connection staff [804-646-8510 or 804-646-3026].

WATER MAIN EXTENSIONS INSTALLATION

FEES: *DPU required fees for all water mains to be installed in an existing public right-of-way or alley are estimated by the DPU.*

The Owner/Developer is required to submit a completed W-9 form and to pay the estimated cost as determined by the DPU.

Once fees are paid the DPU will initiate a work order for installation by the DPU; an allownace of 45 to 60 days should be made for completion of the actual installation.

NOTE: *Water installations that are to be installed by the Owner/Developer and subsequently will become "public" will require execution of a "Contract to Extend Water" and may require a "Developer's Agreement".*

FIRE HYDRANT

FEES: *DPU required fees for all fire hydrants to be installed on an existing public watermain are estimated by the DPU. The*

Owner/Developer is required to submit a completed W-9 form and to pay the estimated cost as determined by the DPU.

Once fees are paid the DPU will initiate a work order for installation by the DPU; an allownace of 45 to 60 days should be made for completion of the actual installation.

The City of Richmond DPU supplies and installs the following: Tap into existing water main, gate valve, necessary length of ductile iron pipe, fire hydrant.

WASTE [SANITARY] & STORM WATER: Installation & Inspection Expectations

FEES: *DPU required fees for all services/connections are as shown in City Code Appendix A or as determined in accordance with DPU Policy. Fees for waste and/or storm water services will not be accepted until detailed information is provided to the DPU showing the dimensional location of all required installations.*

The City of Richmond DPU does not supply nor install any new facilities or structures associated with waste or storm water services/mains for new development or redevelopment. The applicant supplies and installs all required materials .

If an existing lateral is planned for re-use you must coordinate with the DPU Collections Division [804-646-1392 or 804-646-1395] to have the lateral CCTV inspected by the City DPU while the pipe is exposed [excavation by your contractor].

Existing infrastructure that may require repair or replacement is assessed individually by the DPU.

NOTE [1]: No work shall be initiated until a pre-construction meeting has been coordinated with the DPU Collections Division [804-646-1392 or 804-646-1395] at least 48 hours in advance.

[2]: Waste and Storm Water installations that are to be installed by the Owner/Developer and subsequently will become "public" will require execution of any applicable permits and may require a "Developer's Agreement".
